

CDS Junior Talent Programs

Initiatives to identify junior talent before entering the IT labor market, aligned to HPE business needs

HPE CDS Tech Challenge

Challenge and hackathon event organized by CDS in collaboration with HPE, whose goal is to create awareness about the brand and recruit the best technological profiles among under-graduates.

cdstechchallenge.com

CDS Academy

Training program, with a technical and soft skills agenda, organized by CDS in collaboration with Universities, whose goal is to position HPE brand and recruit best-in-class talent.

thecdsacademy.com

CDS Garage

Academic Internship program for undergraduates, including on/off-project internships and TFM/TFG tutoring, which allows for shadowing and evaluation before committing on hiring.

STEM

Events in the form of masterclass and mentoring sessions to promote STEM careers in the next generation

Tech Talks

Sessions focused on a specific technology, aimed to share our success stories and promote HPE desired skills among young students.

HPE Family Mentorship

Multi-day mentoring program, integrating professionals with different backgrounds and seniority, to ease a decision-making process.
